

## FECR TO BUILD THE CUBE ON BRICKELL AVENUE

July 26, 2011

MIAMI - Developer Tibor Hollo, president of Florida East Coast Realty, has announced plans to build another landmark building in Miami's downtown.

The CUBE will be a 2,500sf, 30-foot high, glass-enclosed structure on the site of 1101 Brickell Avenue that will house a new TD Bank office.

One-of-a-kind in Southeast U.S., the CUBE was inspired by the famous Apple store on New York's 5th Avenue, as well as the Hotel Industriel in Paris. The CUBE will be constructed on the southwest corner of 1101 Brickell Ave., with direct access to Brickell Avenue.

1101 Brickell recently underwent a \$26 million renovation and beautification after FECR acquired the property in 2009, including "smart" technology upgrades. Construction commenced July 11. The CUBE is designed by Kobi Karp Architecture and Design.

The CUBE will be a 2,500sf, 30-foot high, glass-enclosed structure on the site of 1101 Brickell Avenue that will house a new TD Bank office.
