Atlantic Broadband partners with Miami Data Vault

Atlantic Broadband, a provider of internet, phone and TV services has announced a partnership with Miami Data Vault (MDV), Miami's first data centre and collocation facility. The partnership enables Miami Data Vault customers to leverage Atlantic Broadband's suite of business service offerings.

Under the terms of the new partnership, Miami Data Vault will add Atlantic Broadband to its carrier-neutral offering. Miami Data Vault is a locally owned and operated data service facility that serves as a connectivity hub for numerous clients across all business sectors.
