PANORAMIC PIZZAZZ

With their much-anticipated topping-off scheduled this month, Brickell's own Panorama Tower is an exciting addition to the already thrilling district.

TEXT BY RYAN JARRELL

Always eager to set and break records, Miami will set the standards for what qualifies as a "skyscraper" with the completion of ultra-luxe mixed-use complex Panorama Tower, soon to be the tallest building in The Sunshine State. Featuring 85 stories, 821 luxury apartments and 50,000 square feet of retail space, the best thing about this complex is that it's a local project created with locals in mind. That's right,

this stunning testament to the draw of Miami's urban core is produced by none other than Miami-based Florida East Coast Realty. With a number of stunning amenities – including 3 private theatres, a healthfully modish bayview yoga & pilates studio and a "Muse Room" for live music sessions and recordings – Panorama Tower is sure to be one very welcome addition to our ever-evolving skyline;

PanoramaTower.com.
