CHAIRMAN AND PRESIDENT OF FLORIDA EAST COAST REALTY

I am greatly honored to receive this incredible recognition and grateful to South Florida Business & Wealth for presenting me with this prestigious award. When I reflect upon my 60 plus year career at Florida East Coast Realty (FECR), constructing over 60 million square feet of residential and commercial real estate, I am very proud to have witnessed and been a part of many remarkable and indelible transformations in our extraordinary community. From spurring the original live/work/play concept in Miami's urban core to now completing Florida's tallest structure (the 821-unit Panorama Tower in the heart of Brickell), our company and our family have always been dedicated to pushing boundaries; building better, bigger, and higher with each new project; and continually reshaping the skyline.
